NOTES:

1. This detail applies to at grade (not ramped) curb crossings. In locations with curb ramps, Caltrans standard detail A88A shall apply.

2. If existing culvert headwalls conflict with crosswalk locations, the width between the lines may be reduced to seven (7) feet.

3. All thermoplastic marking material, traffic paint, and markers, shall be per State Specification.

4. The application of traffic stripes and pavement markings shall be in conformance with Caltrans Specifications sections 84 and 85.

5. Crosswalks contiguous to school grounds are to be 12" yellow lines.
