NOTES:
1. All sanitary sewer lateral materials shall be approved by the City of Eureka. All valves shall be Red-White Valve Corp. (or approved equal).
2. Factory manufactured fittings shall be used exclusively.
3. Utility boxes within the traveled way shall be rated for direct traffic (H-20 loading) and shall be surrounded by a 12" x 12" concrete collar.
4. In areas where curbs and sidewalks do not exist, utility boxes shall front the property being served. Exact location to be approved by the City.
5. Pressure sewers shall be sized for design conditions; lateral size shall be 2".
6. Individual pressure sewer laterals and all appurtenances from the sanitary sewer main to the house are privately owned and maintained.
